

World Liqueur Awards 2025: Bronze Medal for Amaro Don Carlo

The awards ceremony of the World Drink Awards 2025 took place on April 15 in Norwich, United Kingdom, during which the winners were officially announced.

Amaro Don Carlo was awarded the **Bronze Medal** in the Liqueurs category.

The event brought together outstanding products and artisans from around the world, as well as brand ambassadors and journalists.

Twenty-six categories were in competition, and the international panel of experts carried out blind tastings following rigorous criteria.

The competition was first established in 2007 as the World Whiskies Awards by Whisky Magazine, and since 2013 has broadened its scope by including other types of drinks, thus evolving into the current, more wide-ranging format of the World Drink Awards.

This is yet another important international recognition for Amaro Don Carlo, an artisanal herbal liqueur that is both a product and a project born from the idea and vision of **Angela Caliendo** and her husband **Carlo Gargiulo**, who have long selected and offered quality products with enthusiasm and professionalism at **Enoteca Gargiulo** in Eboli.

Composed of **60% walnut hull** and a **mix of selected herbs and spices**, Amaro Don Carlo is not simply the result of a combination of raw ingredients, but the fruit of **intangible elements** such as **love and deep dedication**, along with the efforts, sacrifices, and personal investments that Angela and Carlo have made over time to bring it to its current form and turn it into a project that looks to the future.

DON CARLO
LIQUORE ALLE ERBE

The final event of this edition of the World Drink Awards is scheduled for next June 4, the day on which the names of the global title winners will be revealed.
